

TRAFFIC ALERT

RESLER ON-RAMP TO I-10 EAST TO BE DETOURED

Starting next week, the Resler entrance ramp to I-10 will not allow drivers to enter I-10 East. Instead, drivers on the Resler ramp will be taken along the CD lanes and be detoured through the Sunland Park signalized intersection.

Drivers can expect this temporary condition to be in place starting sometime between Monday and Wednesday, Jan. 14-16. The change will stay in place through to the end of February 2019, approximately. We cannot provide exact dates due to this work being dependent on weather and other factors.

All closures are subject to change. Updates are posted to the **GO 10** website at go10elpaso.com.
