The permanent Sunland Park eastbound exit ramp to open

Last week, **GO 10** announced crews were targeting the week of Feb. 10 to close the existing Sunland Park eastbound exit ramp (Exit 13) and open the new Sunland Park eastbound exit ramp (Exit 13). The target week has changed and a firm date is now set.

Motorists can expect Sunday, Feb. 17 to be when crews relocate the eastbound Sunland Park exit ramp (Exit 13). Motorists should pay attention to overhead exit signs once the change is in place because the new and permanent Sunland Park exit ramp (Exit 13) will be accessible from I-10 Eastbound prior to reaching Resler, as illustrated.

Note: All closures and operations are subject to change or cancelation.

The Texas Department of Transportation is responsible for maintaining 80,000 miles of road and for supporting aviation, rail, and public transportation across the state. GO 10 is a \$158 million reconstruction of Interstate 10 that spans approximately 6 miles on El Paso's West Side between Executive Center Boulevard and North Mesa Street. GO 10 features the addition of collector-distributor lanes and a new direct connector with Border West Expressway.
